ULYSSES

PROFESSIONAL SUMMARY

Maurício is a skilled independent business process consultant who helps businesses by researching and analyzing their implemented processes and systems. He will then make recommendations to improve these processes and practices with a goal to improving overall efficiency.

Maurício is experienced in ISO accreditation projects, ICT audits, corporate policy governance & compliance, new business startups, company re-structures, multiple company operational mergers & nationwide IT technology rollouts. He has extensive experience in areas such as field services operational utilisation reviews & improvements, petrol service station industrial automation, web development, retail point-of-sale solutions, all within technology service industries.

He is an accomplished service operations manager, with over 25+ years of technology leadership experience. He excels in engineering technology, interacting with management, colleagues & staff, and at developing business processes to solve everyday problems for people and organizations – both large and small.

He is passionate about quality workmanship, improving people's skills to build high performing teams to consistently achieve projects' goals within projected budgets & time frames. The mix of his managerial, technical, and change management skills allow him to adapt easily to different cultures, environments, and teams, both overseas and within New Zealand.

Leveraging his experience, attention to detail, and leadership skills, nurtured and managed small, medium & large (60+) technical teams to achieve timely deliveries of challenging projects such as technical implementations and technical operational services with renewed energy & greater efficiency.
